

You're an important part of our future. Hopefully, we're also a part of yours! At B. Braun, we protect and improve the health of people worldwide. This is also our vision for research and development. You see complexity as an opportunity – and quality and sustainability are important criteria for your work. We would like to work with you on tomorrow's solutions. That's how we work to create sustainable healthcare – locally, in regions, countries and worldwide. Together. That's Sharing Expertise.

Head of Cyber Defense Center

Reference Code PL-KW 0099-86491

As the Head of Cyber Defense Center, you will play a critical role in safeguarding our organization's technology infrastructure, data, and systems. You'll lead a team of skilled cybersecurity professionals, ensuring proactive threat detection, incident response, and continuous improvement of our security posture. Your strategic vision and operational expertise will be instrumental in maintaining a robust cyber defense capability.

Duties and responsibilities

- Leadership and Strategy (developing and executing a comprehensive cybersecurity strategy aligned with business objectives, collaborating with the Global CISO and other senior leaders to define the vision for the Cyber Defense Center, establishing and communicate clear goals, performance metrics, and KPIs for the team)
- Security Operations (overseeing 24/7 security monitoring, incident response, and threat intelligence activities, managing security incidents, ensuring timely resolution and minimizing impact, coordinating with internal teams and external partners to enhance incident response capabilities)
- Threat Intelligence and Vulnerability Management (staying abreast of emerging threats, vulnerabilities, and attack techniques, implementing threat intelligence feeds and collaborate with threat hunters, driving vulnerability assessments and remediation efforts across the organization)
- Incident Response Coordination (preparing and executing incident response plans, including communication strategies, coordinating with the Crisis lead and IT teams during security incidents, conducting post-incident reviews to identify areas for improvement)
- Team Management (leading and mentoring an international diverse team of cybersecurity professionals, fostering a culture of continuous learning, innovation, and collaboration, conducting regular performance evaluations and providing career development opportunities)
- Budget and Resource Management (developing and managing the Cyber Defense Center budget, optimizing resource allocation to achieve maximum effectiveness, collaborating with procurement for vendor selection and contract negotiations)

Professional competencies

- Bachelor's degree in Computer Science, Information Security, or related field (Master's preferred)
- Minimum of 10 years in cybersecurity, including leadership roles.
- Proven track record in managing security operations, incident response, and threat intelligence.
- Experience in the healthcare or medical technology industry is advantageous.
- CISSP, CISM, or other relevant certifications
- Strong understanding of network security, cloud security, and emerging threats.

Personal competencies

- Excellent communication, negotiation, and stakeholder management skills.
- Ability to balance strategic thinking with hands-on execution.

What we offer
