

Technical Details

The following list contains helpful hints explaining which programs, settings and plug-ins are required to enable you to get maximum benefit from this B. Braun website.

Browsers

The website is optimized for Internet Explorer (version 6 or higher), Mozilla Firefox (version 2.0 or higher) and Safari (version 4 or higher on MacOS 10.5 and 10.6). Google Chrome is not supported at the moment.

Browser settings

Microsoft Internet Explorer:

- activate JavaScript (Scripting - Active Scripting)
- activate ActiveX (control elements and plug-ins)
- activate Cookies
- activate pop-up's

Plugins

Adobe Flash Player (version V. 9.0.124 or higher)
Adobe Reader

Screen resolution and color depth

The layout of the website is designed for a screen resolution of 1024x768 pixels or greater. For optimum display of photos and graphics we recommend a color depth of at least 16-bit (= 65,000 colors).
