

You're an important part of our future. Hopefully, we're also a part of yours! At B. Braun, we protect and improve the health of people worldwide. This is also our vision for research and development. You see complexity as an opportunity – and quality and sustainability are important criteria for your work. We would like to work with you on tomorrow's solutions. That's how we work to create sustainable healthcare – locally, in regions, countries and worldwide. Together. That's Sharing Expertise.

Senior React Developer

Reference Code PL-KW 0096-86219

As a Senior React Developer, you will be involved in the ideation and creation of our next generation Digital Products, which prepare our world for the connected healthcare of tomorrow. Our innovative solutions are tailor-made to fulfill the unique needs and high-quality standards of our partners and customers in the healthcare industry. Our development process is guided by the Scrum framework. We do Cloud, we do IoMT and we do design. Collaboration, transparency, passion, and quality are what we value most.
