# DIVEEN®

The 1<sup>st</sup> intravaginal tampon designed to reduce stress urinary incontinence.<sup>(1)</sup>

# Alleviate your day-to-day...

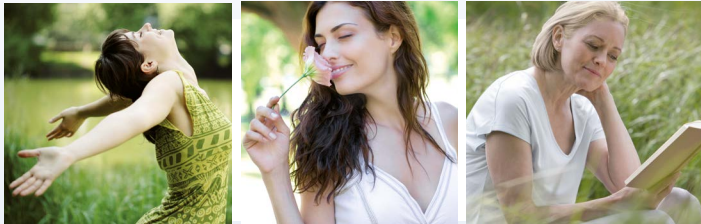

Millions of women around the world are suffering from stress urinary incontinence.

In France alone, this affects more than 3 million women.

Have you been embarrassed to laugh, go to a party or to play sports?

Urine loss can affect your daily activity. It can prevent you from doing the things you love.<sup>(2)</sup>

Don't let it overwhelm you,  
choose Diveen<sup>®</sup>, the discreet protection!

## What is Diveen<sup>®</sup> ?

Diveen<sup>®</sup> is an intravaginal device indicated for women with urine loss, especially from stress or mixed urinary incontinence.

As simple as a tampon to apply!

Clinically proven **efficacy** in the management of stress urinary incontinence in women.<sup>(3)</sup>

-  Diveen<sup>®</sup> reduces frequency of urinary leakages by 69% in average <sup>(3)</sup>
-  Diveen<sup>®</sup> improves significantly patient satisfaction about urinary symptoms: satisfaction score of 78/100 for patients who used Diveen\*
-  Diveen improves users' emotional well-being <sup>(3)</sup>

\* vs. satisfaction score of 5/100 for patients who did not use Diveen <sup>(3)</sup>

# Why Diveen®?

Discreet, easy-to-use and efficient <sup>(3)</sup>,  
Diveen® follows you wherever you go

## Innovative and patented concept <sup>(1)</sup>

Diveen® has been designed to support the anterior vaginal wall in the area below the bladder neck. During an effort such as e.g. coughing, the intraabdominal pressure suddenly rises and generates a peak of pressure which transmits itself via the bladder on the flexible ring of Diveen®. This in turn causes the rigid part of the device to move upwards<sup>(1)</sup>, thus supporting instantly the urethra and reducing significantly the incidence of urine leakages.<sup>(3)</sup>

# Why to use Diveen® ?

- A unique mechanism enabling significant reduction of the risk of urine leakages. <sup>(1)</sup>
- 100% discreet protection.
- Biocompatible material.
- 12 hours of incontinence control to enjoy physical activity with total peace of mind. Remove the device at night after one day of use
- Easy to use similar to a tampon. No need to remove Diveen® during your day, even when going to the toilet.
- Can be inserted without using the applicator.

# How to wear Diveen® in a few simple steps\*

## 1. Before using the device

- Wash your hands.
- Get into a comfortable position.

## 2. Preparation of the device

- Gently pinch the ring of the device & insert it into the applicator tube.
- Insert the push rod back into the applicator tube. Diveen® is now ready for insertion.

## 3. Insertion of the device

- Insert the applicator tube into the vagina.
- Using the push rod, push the device into the vagina (just like a tampon applicator)

## 4. Removal of the device

- Gently pull on the removal cord.

\* Please read the product instructions carefully before use. Consult your doctor for advice on managing your incontinence.
