#### 3. Screen for Stability Data

To check the stability and compatibility of a specific drug with our B. Braun products, materials and IV solutions, simply select one of the alphabetically listed drugs in the "Drug" list.

There is also the possibility to filter your search according to the drug category upfront. Once the drug is selected, you will have the possibility to further restrict your search by selecting the specific B. Braun product and / or the carrier IV solution.

### 4. Search Results

Once your search criteria have been selected, the stability outcome will be displayed directly underneath.

Click on the combination of your choice to receive detailed information regarding the respective stability / compatibility information.

# 5. Drug Stability / Compatibility List and Lab Report Summaries

You will receive an overview of all Drug Stability / Compatibility tests available for the selected criteria. Click on the test of your choice to access the respective laboratory report.

## 6. Download of Lab Report Summaries

By clicking on the download button, the respective Test Summary can be downloaded / printed out for your reference and/or any future use.

Selected Drug S	Stability / Compatibility	/ List				$\times$
Drug	Concentration ③ (Range)	Carrier Solution	Refrigerated (2°C - 8°C)	Room Temperature () (15°C - 25°C)	Storage Condition 🛈	
Paclitaxel	0.3 mg/ml	NS/D5W	7 Days	24 Hours	Combined
