**CHRONIC WOUND MANAGEMENT PATHWAY**

**MANAGING BIOFILM SUCCESSFULLY**

- **SOAKING**
  - Prontosan® Wound Irrigation Solution
    - Irrigation Solution for Biofilm Management

- **REMOVING**
  - Prontosan® Debridement Pad
    - Soft Mechanical Debridement

- **COVERING**
  - Prontosan® Gel
    - Barrier Gel to prevent Biofilm reformation
  - Prontosan® Gel X
    - Barrier Gel to prevent Biofilm reformation

**TREATMENT OF LOCAL INFECTION & ODOURS**

- **INFECTION**
  - Askina® Calgitrol® Ag
    - Foam with thin silver alginate layer
      For flat wounds
  - Askina® Calgitrol® Thin
    - Thin silver alginate layer
      For cavity and difficult to dress wounds
  - Askina® Calgitrol® Paste
    - Wound dressing with broad antimicrobial effectiveness
      Conforms closely to the wound bed, helping to avoid any dead spaces

- **ODOURS**
  - Askina® Carbosorb
    - Charcoal dressing

**EXUDATE MANAGEMENT**

- **LOW**
  - Askina® Sorb
    - Highly absorbing alginate dressing

- **MEDIUM**
  - Askina® Sift Net
    - Silicone wound contact layer dressing

- **HIGH**
  - Askina® Sift Net Plus (EU)
    - Silicone wound contact layer dressing

**SKIN CARE**

- **LOW**
  - Askina® DresSil® Border Lite (EU)
    - Foam dressings with silicone adhesive
      Additional adhesive border
      Thin, discrete & conformable to anatomical contours

- **MEDIUM**
  - Askina® DresSil® Saran
    - Foam dressings with silicone adhesive
      Additional adhesive border

- **HIGH**
  - Askina® DresSil® Heel
    - Foam dressings with silicone adhesive
      Additional adhesive border

- **PREVENT SKIN DAMAGE**
  - Linovera® Solution of hyperoxygenated fatty acids
    - Prevention of pressure ulcer
