Prontosan® Wound Spray
Cleansing and moistening of superficial wounds and burns

The Prontosan® Wound Spray supports rapid wound healing by effective cleansing and moistening of superficial wounds and burns.

Application
Thoroughly spray Prontosan® Wound Spray onto the entire wound and the wound site. With this, the risk for infection is reduced and optimal healing conditions are generated. Afterwards, cover the wound with a dressing. Clotted or encrusted dressings can be moistened with Prontosan® Wound Spray in order to be easily removed and to avoid pain during removal.

INDICATIONS
For cleansing, irrigation and moistening of:
- Superficial acute and chronic wounds (e.g. skin lesions, bites, lacerations, abrasions, crush wounds, decubitus ulcers, ulcus cruris, diabetic ulcers)
- Superficial burns
Supports removal of encrusted bandages.

ADVANTAGES
- Prevents wound infection
- Supports wound healing
- Prevents MDRO contamination
- Prevents biofilm formation
- Reduces pain
- Painless application

HANDLING / APPLICATION TIP
Rinse off residues of soaps, ointments, oils, or other wound cleaning substances thoroughly prior to the use of Prontosan® Wound Spray.
