Prontosan® Debridement Pad
SOFT MECHANICAL REMOVAL OF SLOUGH AND DEBRIS
Micro Technology, Maximum Cleansing

The Prontosan® Debridement Pad uses the latest technology in cleansing – microfibres. Microfibres are very small and utilise ‘electrostatic forces’ to attract even the smallest particles to them.

Each microfibre has a multiple strand structure, allowing for many more particles of slough and debris to be removed from the wound bed and bound to each microfibre within the pad; not just brushed away as with traditional, much larger, monofilament fibres.

There are millions of microfibres in each Prontosan® Debridement Pad for magnified debridement power.

INNOVATIVE SHAPE – DESIGNED FOR SUCCESS

Tapered end for difficult to access areas and cavities

Round end for larger areas

INNOVATIVE SHAPE – DESIGNED FOR SUCCESS

Experts in Wound Cleansing

A NEW ADDITION TO COMPLETE THE PRONTOSAN® RANGE

Designed for soft mechanical debridement of slough and debris. The Prontosan® Debridement Pad removes and binds slough and debris and assists with effective wound bed preparation – new granulation tissue is left intact.

FEATURES

- Good cleansing and debridement due to microfiber technology
- Soft debridement, no tissue irritation
- Unique droplet shape to allow debridement of cavities and areas difficult to reach
- Blister packaging to allow safe and aseptic soaking of the pad prior to use
- Produces good results even with scaly and necrotic coatings, if they are subject to prior autolytic treatment
BEFORE AND AFTER USING THE PRONTOSAN® DEBRIDEMENT PAD

Before debridement
After a single debridement
3 weeks post debridement

HOW TO USE FOR BEST RESULTS

1. Open the packaging, using the integrated tray to moisten (with Prontosan Solution*), covering the microfibre side of the pad

2. Applying light pressure, use circular or sweeping motions over areas of slough and debris

3. Irrigate (with Prontosan Solution*) to cleanse

4. Apply Prontosan Gel X to help prevent biofilm formation and apply dressings as appropriate**

TIP
- B. Braun branded side faces away from the wound bed
- No need to remove emollient prior to use
- Prontosan® Solution (as soak or rinse) can be used beforehand
